

Hello Classmates,

Teresa and I have been married 47 years and have two sons and three wonderful grandchildren.

I started my career at the Lego Toy Factory in Loveland and that is where Teresa worked as well, although we originally met at Santerermo's Pizza. Three months later we were engaged and three months after that we were married.

I worked for seven years at Hewlett Packard before accepting a sales position with American Sportsman Club and I have been in sales since. Since the American Sportsman's club I have been in Industrial Motor and Generator repair for 11 years, the Bearing and Power Transmission Distribution 21 years and currently I am in the Wind Energy Industry in parts and service. My entire life is really about building relationships with my customers. I travel about 50 to 60% and many times Teresa goes with me or meets me for a few days. I don't plan to retire anytime soon, because I love what I do.

We have lived in Loveland, Houston TX, Denver, Casper WY and back to Loveland, Fort Collins and now live in Johnstown.

I remember the haunted night like the night at Lone Tree Lake at midnight with a full moon, the cemetery near Chastines Grove where we were set up with a story about an old woman that came out of her grave and wandered the cemetery on a full moon. The guys were knocking the girls down trying to get out the same gate. There are many other good memories too numerous to mention.

Love, from your fellow classmate,

Ron Bland
